Why SIIT?

SIIT is an International academic institute of Thammasat University.

SIIT has up-to-date curricula in Engineering & Management fields with English as the medium of instruction.

SIIT has strong partnerships and MoUs with leading universities around the world in the form of exchange programs and other collaborations.

All faculty members at SIIT have doctoral degrees, work on a full time basis, and are fully available for consultation and advising.

SIIT offers 3 tracks of study to suit a student's career goals.

SIIT has excellent library, research and laboratory facilities.

Financial assistance is available for students in need, and there are scholarships for outstanding students.

3 TRACKS OF STUDY FOR UNDERGRADUATES

Track 1 Student Exchange

Spend one semester or a full academic year during the senior year as an exchange student in leading universities abroad. SIIT has academic exchange agreements with more than 80 universities worldwide for interested students to enroll as exchange students, including universities in Japan, Germany, Switzerland, France, Belgium, Finland and etc.

Track 2 Extended Internship

Complete all coursework within the first semester of the senior year and spend 4-6 months as a student intern in a leading company or in a research institute.

Track 3 Research Activity

Spend 4 years at SIIT. During the summer semester in the junior year, gain industrial experience through summer training. Experience will be further increased by doing research activities in a senior project.

Academic Programs

Bachelor of Engineering

Chemical Engineering (ChE)

Civil Engineering (CE)
